

World Echo Day

Please plan to join your colleagues around the world for:

The 17th Annual Echo in Context Video Teleconference

Heart Failure:
Echo's role in an
emerging health crisis

Saturday, February 2, 2002

(Sunday, February 3, 2002 for Asia Pacific)

For more information, please refer to www.echoincontext.com

This program is jointly sponsored by Duke University Medical Center and Agilent Technologies

DUKE UNIVERSITY
MEDICAL CENTER

Agilent Technologies

The 17th Annual Echo in Context Video Teleconference

Be a part of the largest educational event devoted to echocardiography!

Program will exam:

- ◆ Updated and new methods for evaluating systolic and diastolic dysfunction
- ◆ New approaches for medical treatment
- ◆ New approaches for surgical treatment
- ◆ Interfering with heart failure before it is a problem
- ◆ How do valve disease, hypertension, coronary disease and other common problems play a role.
- ◆ Heart failure in children
- ◆ Echo in transplant and cardiac assist devices (biopsies, pre-transplant, types of assist devices, what echo shows)

Methodology:

- ◆ Short lectures
- ◆ Case oriented approaches
- ◆ Echo demonstrations

Program Director and Host

Joseph Kisslo, MD
Duke University Medical Center
